

ENHANCE CAT6+ SFTP FULL COPPER OUTDOOR CABLE 305M

Rugged Double Jacket | High Speed Gigabit | EMI & UV Resistant

Deploy high speed gigabit data connections in the most challenging outdoor environments with this premium 305m (1000ft) Cat6+ SFTP bulk outdoor network cable. Engineered with an advanced double jacket construction (PVC inner/PE outer), this 100% full copper cable provides maximum defense against moisture, UV radiation, extreme temperatures, and mechanical wear, supporting PoE applications over long distances.

PRODUCT TYPE	SFTP Outdoor Network Cable	CATEGORY	Category 6+ (Enhanced High Speed)
LENGTH	305m (1000ft) Spool	CONDUCTOR GAUGE	23 AWG Solid
CONDUCTOR MATERIAL	100% Pure Full Copper	SHIELDING	SFTP (Aluminum Foil + Braided Mesh)
PANEL MATERIAL / JACKET	Double Jacket (PVC Inner + PE Outer)	COLOR	Industrial Black
PORT COUNT	N/A (Bulk Infrastructure Media)	MOUNTING	Direct Burial, Conduit, or Aerial
TERMINATION TYPE	Shielded RJ45 / IDC Compatible	WIRING STANDARD	ANSI/TIA-568-C.2 / ISO/IEC 11801
CONTACT MATERIAL	Full Copper Conductor Interface	RACK HEIGHT	N/A
CABLE MANAGEMENT	Tangle-Free Pull Spool	LABELING	Sequential Metric Spacing Marks
PERFORMANCE	Gigabit Support / High Noise EMI Block	OPERATING TEMP	-40°C to 85°C
STORAGE TEMP	-45°C to 90°C	HUMIDITY	Waterproof / 100% Non-condensing
APPLICATION	Outdoor IP Cameras, WAPs, Bridging	COMPLIANCE	ETL Verified, CE, RoHS, ISO 9001
